ACM Career Week

Reflections|Projections 2017
University of Illinois
at Urbana-Champaign

Hello!

We would like to invite you to participate in ACM Career Week 2017, a Computer Science focused career event hosted by ACM@UIUC and the University of Illinois Department of Computer Science. ACM Career Week complements Reflections|Projections, our annual tech conference.

ACM Career Week 2017 will take place from **September 25th to 28th**, with a career fair on **September 27th**, a startup fair the day before, and networking events throughout the entire week. ACM Career Week occurs in the week leading up to the tech conference events, giving you the opportunity to to reach out to the incredibly qualified students at the University of Illinois as well as students from around the midwest and the nation who attend the conference to increase awareness and interest in your organization.

Reflections|Projections 2017 will take place from September 28th to October 1st. Mechmania, our annual AI programming competition, will also occur during the weekend of RP. Datathon, our data-focused hackathon will be the September 23nd to 24th, the weekend before ACM Career Week.

The next page has more details on how you can participate in ACM Career Week 2017. If you have any questions, please reach out to us!

We look forward to working with you to make ACM Career Week and Reflections|Projections 2017 a valuable experience for both your company and our students.

Thank you,

R|P Corporate Committee
